Geo Sciences

GRIMM, M. C., GRIMM, K. I. & MANUELA AIGLSTORFER, M.: The Mainz Basin separates from the Upper Rhine Graben: Investigations into the facies development in the boundary area between the Sulzheim Formation (Selztal Group) and the Hochheim Formation (Mainz Group) in Eppelsheim, Rheinhessen (Chattian, Tertiary, Mainz Basin).	7
POSCHMANN, M. J., VOIGT, S. & RAPIN, H.: Raindrop imprints as evidence of subaerial exposure from the Klerf Formation (Lower Devonian, Emsian) of the Köppen Quarry at Waxweiler, Eifel.	37
NUNGESSER, K., STREB, A. R., GRIMM, M. C. & TWERASER, E.: Cyanobacteria-encrusted stems from the Oberrad Formation of the Mainz Basin (Mainz Group, Miocene, Tertiary).	47
SCHINDLER, T. & POSCHMANN, M.: First records of fossils from a new outcrop in the Hunsrück Slate near Bundenbach (Kaub Formation, Hunsrück Slate Group; early Emsian, early Devonian; Rhenish Slate Mountains, SW Germany).	65
ALBERTI, M.: Lichida (Trilobita) from the Highest Lower Devonian Rupbach Slate.	73
KARL, H.-V. & PAUST, E.: Natural history of the European pond turtle in Germany 3: Checklist of the prehistoric distribution of the European pond turtle (<i>Emys orbicularis</i> L., 1758) in Saxony-Anhalt and Saxony (Testudines: Emydidae).	109
STUBENRAUCH, K.: Calcite agates and other pseudomorphs after agate – an agate paradox.	137
FRANKHÄUSER, G., GRIMM, K. I. & TOBIAS HÄGER, T.: The Mainz Imperial Crown under the microscope.	187

Life Sciences

KRUSE, J., KUMMER, V., THIEL, H. & KLENKE, F.: Plant parasitic microfungi in the Bad Kreuznach district – report on a field meeting.	195
GREISSEL, R.: Rediscovery of the Octopus stinkhorn <i>Clathrus archeri</i> (BERK.) DRING in the Rhein-Hunsrück district and its further distribution in Rhineland-Palatinate (Basidiomycota: Phallaceae).	245
KRUSE, J.: The occurrence of plant-parasitic microfungi on the early star-of-Bethlehem – <i>Gagea bohemica</i> (ZAUSCHN.) SCHULT. & SCHULT.F. in Rhineland-Palatinate.	255
SCHÖNHOFER, A. L.: Successful habitat restoration – Floristic development of the expansion area at the NSG “Kalksteinbrüche Rosengarten”, Gundersheim (Rhineland-Palatinate).	293
SCHÖNHOFER, A. L.: The herbarium of Ludwig GEISENHEYNER in the Natural History Museum Mainz / State Collection of Natural History of Rhineland-Palatinate (MNHM).	329

RICHLING, I. & GROH, K.: The mollusk fauna of Laacher See (Volcanic Eifel, Rhineland-Palatinate) and the last population of the Glutinous Snail <i>Myxas glutinosa</i> (O. F. MÜLLER, 1774) west of the Rhine in Germany (Mollusca: Gastropoda & Bivalvia). ...	345
WISSEL, R.: The mollusk fauna in the nature reserves of the Nieder-Olm municipality along the river Selz (Mollusca: Gastropod & Bivalvia).	369
RENKER, C. & SCHMIDT, N.: Additions to the fauna of Rhineland-Palatinate – the synanthropic fauna of the Ingelheim wine cellar with records of the ringlegged earwig <i>Euborellia annulipes</i> (LUCAS, 1847) (Insecta: Dermaptera), the greenhouse slug <i>Ambigolimax valentianus</i> (A. FÉRUSAC, 1821) and the quick gloss snail <i>Zonitoides arboreus</i> (SAY, 1817) (Mollusca: Gastropoda).	379
NIEHUIS, M.: Contribution to the knowledge of the dragonflies (Insecta: Odonata) of the area of the “Speyerer Dünen” and the “Bruchbachtal”.	387
GLORIUS, J. & RADEMACHER, M.: Grasshoppers of a gravel pit near Bingen (SW Germany, Rhineland-Palatinate) with records of <i>Aiolopus thalassinus</i> (FABRICIUS, 1781) at its northern distribution limit (Orthoptera: Acrididae).	399
MORKEL, C. & DUMAS, H.: Biology and ecology of the arachnophilic stilt bugs <i>Apoplymus pectoralis</i> FIEBER, 1859 and <i>Metacanthus annulosus</i> (FIEBER, 1859) (Heteroptera: Berytidae) in webs of the tropical tent-web spider <i>Cyrtophora citricola</i> (FORSKAL, 1775) (Araneae: Araneidae).	419
LUDEWIG, H.-H.: The ground beetle fauna of the flood plain area between Mainz-Mombach and Budenheim in Rhine-Hesse, Rhineland-Palatinate (Coleoptera: Carabidae).	465
NIEHUIS, M.: Contribution to the knowledge of Coleoptera of the area of a shifting sand area of Speyer and the “Bruchbachtal” based on investigations between 1988 and 1990 (status 1994).	479
DOEKER, A. & WAGNER, T.: Beetle fauna of differently cultivated fields compared to a wild weed field in the Vorderpfalz, Rhineland-Palatinate, Germany (Insecta: Coleoptera).	531
NIEHUIS, M.: The entomologist Ernst BLUM (*17 February 1939) on the occasion of his 85 th birthday.	545
NIEHUIS, M.: In memory of the Palatinate naturalist Erich BETTAG (*2 April 1936 – †10 April 2024).	551
FOLZ, H.-G.: Great egret (<i>Ardea alba</i> LINNAEUS, 1758) as a bird of agricultural used farmland and its development in the Special Protection Area “Ober-Hilbersheimer Plateau”, Rheinhessen (Rhineland-Palatinate).	565
DIETZEN, C.: First breeding record of black-winged stilt <i>Himantopus himantopus</i> (LINNAEUS, 1758) and its general occurrence in the Rhineland-Palatinate.	573
BookReview.	580
