Contents

Geo Sciences

GRIMM, M. C., GRIMM B. E. W. W., STREB, A. R. & TWERASER, E.: Geomorphological and pedological investigations of the Tertiary and Quaternary cover beds at the border of the Soonwald and Lower Nahe Hills based on a grassland site near Waldalgesheim (Rheinland-Pfalz, SW-Germany). 7

POSCHMANN, M. J.: Early land plants (Embryophyta: Tracheophyta) from the Rittersturz Formation (Vallendar Substage, Lower Emsian) at Koblenz-Pfaffendorf (Rhineland-Palatinate, SW Germany). 51

GRIMM, K. I.: The NEUFFER collection at the Mainz Natural History Museum / State Collection of Rhineland-Palatinate. 59

ALBERTI, M.: A trilobite association from Middle Devonian Rupbach Shales of the Heckelmann-Mühle quarry. 67

BASSE, M.: The types of the Trilobita from German type localities – Progress in research in the timespan between summer of 2018 and December 2021. 85

Life Sciences

KRUSE, J., GRAEBNER, H. & ENTENMANN, E.: Contribution to the knowledge of phytoparasitic Fungi in Ingelheim am Rhein. 117

KRUSE, J.: Contribution to the knowledge of plant parasitic microfungi in the Mainz botanical garden of the Johannes Gutenberg-University. 149

SCHÖNHOFER, A. L. & RENKER, C.: Inventory of the sand silversot *Jurinea cyanooides* (L.) RCHB. as part of the fauna-flora-habitat monitoring in Rhineland-Palatinate. 185

DOEKER, A., SCHÖNHOFER, A. & HIETEL, E.: The early sandgrass *Mibora minima* (L.) DESV. in Rhineland-Palatinate: Current distribution and recommendations for its conservation and support. 223

OESAU, A.: Studies on *Elymus arenosus* (SPENN.) CONERT in Rheinhessen (Germany, Rhineland-Palatinate). 243

KAPPE, H.: Mollusca and Isopoda of the recreation area “Rheinaue” in Bonn. 255

KAPPE, H.: Downed deadwood reduces regional differences between assemblages of detritivores (Isopoda and Diplopoda). 267

FRANZEN, A.: First record of the spitting spider *Scytodes fusca* (WALCKENAER, 1837) in Rhineland-Palatinate (Germany) (Araneae: Scytodidae). 277

REDER, G.: The European stag beetle – *Lucanus cervus* (LINNAEUS, 1758): Mate guarding behaviour at the sap flow of an oak tree (Coleoptera: Lucanidae). 281

FRANZEN, A.: Rediscovery of the weevil *Mecaspis alternans* (HERBST, 1795) in Rhineland-Palatinate (Germany) (Coleoptera: Curculionidae). 287

VOGEL, J.: First records of *Phyllocnistis extrematrix* (MARTYNOVA, 1955) in Rhineland-Palatinate (Insecta: Lepidoptera, Gracillariidae). 291

ZAENKER, S. & FAHLDIECK, M.: *Lipsothrix remota* (WALKER, 1848) (Diptera: Limoniidae) – a new cavernicolous cranefly for Germany. 295

JÄCKEL, K.: Now also in Rhineland-Palatinate (SW-Germany): *Ornitboica turdi* (LATREILLE, 1812) in the nature reserve “Eich-Gimbsheimer Altrhein” (Diptera: Hippoboscidae). 301

RENKER, C. & JÄCKEL, K.: *Theriopectes gigas* (HERBST, 1787) – a new horse fly species in the fauna of Rhineland-Palatinate (Diptera: Tabanidae). 307

WILLIGALLA, C., FELDMANN, J. & JÄCKEL, K.: Situation of breeding birds in buildings in selected districts of the city of Mainz. 311

DIETZEN, C.: Drowned? – Effects of exceptional rainfall in July 2021 on birds in the SPA “Jungferweiher” near Ulmen, district Cochem-Zell, Rhineland-Palatinate. 321

FÖLLING, A., REIFENRATH, R. & RENKER, C.: In memorial of Albert Oesau *25. Mai 1939 †26. Oktober 2021. 343

Corrigenda zu: ALBERTI, M. (2021): Der Odontopleurid *Rupbachella paedomorpha* n. gen., n. sp. aus dem tiefen Rupbach-Schiefer (Trilobita; Ober-Emsium; Rheinisches Schiefergebirge). – Mainzer Naturwissenschaftliches Archiv 58: 53-67. 355
